QUALITY-FIRST

With Globber, you're in good hands: **Quality comes first as we scoot towards a greener world on wheels.**

Iconic

With France as our birthplace and home to our designs, quality is inherent to our DNA: Not only 50+ awards from all over the world but #1 rankings on mechanical, chemical, and safety tests by international certification regimes.

Inventive

A powerhouse of brilliant minds, our design team in France and the engineering team in the factory are the perfect combination to invent cutting-edge technology: 15+ Globber patents and only the safest and best-quality Globber rides.

"In our work, quality is paramount, because we value our customers. For them, quality means function, reliability, and most importantly safety. We strive to create quality-first Globber products for families around the world!"
Neil Owen, Engineer,
46+ years in the industry
in the UK and around the world

Imaginative

We run on wonder: exploring the world on wheels, hopping on adventures, creating happy memories, and sharing not just quality rides but quality times. Globber is proud to be part of life's moments with you.

Green

With not just 1 but 100+ scooters made with Global Recycled Standard plastic*, Globber gives an array of choice for people to positively impact the planet while reflecting their own style and eco values. Go Globber. Go greener.

Scoot to Eco-lution

Revolutionising the way we scoot without compromising the planet...

With our eco-conscious ethos and unstoppable dedication to a greener world on wheels, Globber shines as a beacon of sustainable scooting.

WHAT WE'VE ACHIEVED

Our 3-wheel collection is made with 25-40% Global Recycled Standard plastic*, and we are working towards 100% Global Recycled Standard plastic* across all collections. Our special **ECOLOGIC** collection is already made with 60-100% Global Recycled Standard plastic plus bio-sourced wheat-straw*.

Since October 2022, this has helped us use:

11,700kg

RECYCLED POLYPROPYLENE
sourced from used bottles & cups

103,210kg

RECYCLED NYLON
sourced from used fish nets

3,000kg

RECYCLED THERMO PLASTIC ELASTOMER
sourced from old toys & pads

1,500kg

BIO-SOURCED WHEAT-STRAW
sourced from agricultural waste

*In applicable components.

Scout to Eco-lution

PLASTIC-FREE PACKAGING

We are striving towards a **greener** future and leaving behind plastic-infested packaging!

All our new products (released in this catalogue) feature plastic-free, recyclable packages, replacing the plastic polybags with recyclable paper and the plastic carry handles with easy-carry slots.

By 2025, all our packages will be entirely plastic-free & recyclable!

We are proud to help support One Tree Planted in their global effort to save the world's forests, one tree at a time.

Check out some of their good work in 2023!

1.5 million

trees were planted to restore 808.20 hectares of land that burned during the 2017 Plateau wildfire in British Columbia. Replanting in burn zones accelerates regeneration, creating wild-life habitat and a healthy, resilient forest.

729,402

trees were planted to restore 584 hectares of land in communities across Chiang Mai and Chiang Rai, Thailand, to improve food security, enhance livelihoods, and boost biodiversity.

440,450

trees were planted to restore 108.50 hectares of land in the Western Region of Jutland, Denmark. This project established multi-functional woodland on marginal farmland to absorb carbon, preserve groundwater, and improve biodiversity.

1,360,168

trees were planted to restore 1,119.04 hectares of land in the Budongo-Bugoma Corridor to support the long-term and large-scale restoration of the Albertine Rift forests in Africa.

ECOLOGIC COLLECTION: ECO FUN FORCE

The Eco Fun Force is our dream team of #scooterheroes that take down carbon emissions, kick the CO2 habit, and forge a **greener** world on wheels—all on our **ECOLOGIC** rides!

A world 1st, our **ECOLOGIC** collection—which includes GO•UP ACTIVE LIGHTS **ECOLOGIC**, JUNIOR FOLDABLE LIGHTS **ECOLOGIC**, and PRIMO FOLDABLE LIGHTS **ECOLOGIC**—is made with 60-100% Global Recycled Standard plastic and bio-sourced wheat-straw*.

We are proud that this collection empowers superhero kids (and parents!) to stand by their green values and team up with an **ECOLOGIC** scooter-hero sidekick.

*In applicable components.

LONGEVITY & REUSABILITY

Globber is in it for the long haul, and our patents and products—which are built to last and adapt, made to move and improve, designed for fun and everyone—are a testament to that promise. Globber rides embody adjustability and versatility, catering to multiple ages in 1 product and transforming with growing kids throughout their childhood years.

Just as we value longevity, we value reusability: Also exclusive to the Globber brand is our spare parts initiative that further supports long-term use. Spare wheels, screws, clamps, brakes, and more are on-hand across all regions—a cost-effective, sustainable way to keep Globbers as good as new for longer!

HOW DOES SCOOTING HELP THE ENVIRONMENT?

Sustainable urban mobility*—which is at the heart of everything we do—is forecasted to reduce at least 55% of greenhouse gas emissions by 2030.

Improves air quality

Significantly lowers CO2 emissions

Conserves resources

Promotes long-term living viability

*Comprises greener transportation choices, such as scooters, bikes, electric vehicles, etc.

WHAT'S NEW?

GLOBBER GOES (even more) GLOBAL!

Creating a greener world on wheels—together!

So proud to see our Globber family around the globe creating lasting memories and positive experiences that give back to people and our planet!

Ready? Set? GO BIKE in Slovakia

Winning races & sharing smiles!

Proudly presented by TV JOJ, Slovakia's #1 private TV channel, JOJKO BIKE CUP 2023—a series of fun-fueled Globber racing events—swept across the nation from April to September. Positioning Globber as the leading brand while giving kids the chance to be champs on our awesome rides, the races were a huge hit—on and off the track!

Famous in France

Taking the spotlight!

Showing all the love for GO•UP DELUXE, super-popular French TV program *La Maison Des Maternelles* brought fun on wheels to their **400K** TV viewers, **750K** YouTube subscribers, **563K**-strong Instagram audience, and **1.6M** Facebook followers!

Mighty in Malta

Driving the brand!

These eye-catching LED billboards in Malta spotlight Globber in high-traffic areas for high-impact branding!

Fantastic at fairs

Globber spirit galore!

Another year of success at industry expos around the world, showcasing Globber as the premier disruptor and trailblazer in markets far and wide.

Shining in Europe

Globber is glowing!

We are proud to see such strong Globber visibility across all of Europe with beautiful, dynamic in-store destinations that drive engagement, deepen experiences, and inspire consumers to buy.

FAO SCHWARZ, MILANO, ITALY

TOY'S PLANET, VILNIUS, LITHUANIA

EUREKA KIDS, BARCELONA, SPAIN

TOY CITY, RIGA, LATVIA

Greener in Singapore

Eco on display!

This attention-grabbing Globber feature at Tangs—one of Singapore's biggest department stores—showcases our beautiful products and our dedication to a **greener** world on wheels!

#scooterrificplay in Asia

Scooting without limits!

Proud to partner with Toys "R" Us Asia on our Scooterrific Play collab: A huge branding success, kids and parents alike had a scooterrific time learning all about Globber, trying our awesome rides, and scooting with limitless imagination!

Extreme in Spain

Go big or go home!

Attracting **32K+** visitors this year, Extreme Barcelona is the premier festival for sports and urban culture in Spain. Kids had a blast trying our scooters in our dedicated fan zone—the smiles say it all!

Fun in China

Immersive engagement!

Globber China hosted a fantastic line-up of events throughout the year: From a football game, tree planting, and Easter brunch to a colour run and French school festival, there was something fun for everyone!

NEW PRODUCTS

INLINE SKATES

As easy as learn-and-turn!

Introducing the first of its kind in the Globbersphere: LEARNING SKATES 2in1! These roller skates adapt with kids—start in learning mode (2 rear wheels are parallel for extra stability) and easily turn inline as a child's skill progresses.

GO•UP BABY 360 LIGHTS

It's a baby's day out!

Designed for ultimate manoeuvrability, GO•UP BABY 360 takes fun to a new level: Parents can steer in complete 360° while kiddos can get comfy with the backrest and soft basket.

DECK THIS OUT

Make a splash with revamped GO•UPs!

This refresh of our iconic GO•UP collection features bold new deck designs, comfy new grips, strong new clamps, and more. Make every adventure count!

ALL DECKED OUT

Ride in style on refreshed PRIMOs!

This revamp of our iconic PRIMO collection features sleek new deck designs, comfy new grips, and sturdy new clamps. Decked out for adventure!

LEARNING TRIKE 2in1

Unlock the fun of learning on wheels!

Pedal or step into a world of fun—either way, LEARNING TRIKE 2in1 is the perfect ride to fuel young minds and build motor skills while having fun!

NEW HELMETS

Safety never looked so cool!

A vibrant explosion of styles and colours that will make heads turn, there's a new Globber helmet to suit every adventurer.

E-MOTION 27

Experience the thrill of a FOLDABLE e-scooter!

Electrifying adventures await with E-MOTION 27, a 2-wheel foldable electric scooter for teens and adults to ride all day!

FLOW FOLDABLE JUNIOR

The perfect ride for little pros!

Unleash the freedom of FLOW FOLDABLE JUNIOR, a 2-wheel foldable scooter for kids as young as 3 years old (and up)!

3/5Y+

2 sizes available:
•XS/S: 26-29 for toddlers aged 3+.
•S/M: 30-33 for kids aged 5+.

Tool-less design to assemble both stages.

Boot made of brushed velvet and EVA material for a comfortable skating experience for kids.

Easy-push button and easy-snap strap to adjust the length and snugness of the skate for a comfortable fit.

Exclusive Globber design for kid skaters.

For S/M (30-33): Four high-quality & high-rebound 54mm (24mm wide) wheels are PU-injected and mounted on ABEC 5 bearings. The rear wheels rotate from parallel to inline.

Push button to easily adjust the size.

TPR rear brake for safe skating and immediate stopping.

Turning rear module converts from learning mode (for extra stability) to inline mode as a child's skill progresses.

For XS/S (26-29): Four high-quality & high-rebound 48mm (24mm wide) wheels are PU-injected and mounted on ABEC 5 bearings. The rear wheels rotate from parallel to inline.

PACKAGING

Master Carton: 1pcs / carton
Size: L 1105 x W 220 x H 509mm
Weight: 16.50kg
Volume: 0.124m³ / 4.368ft³

LCD screen with backlight displays the battery level, speed mode, and current speed. Built-in speed mode settings: 0-6km/h max; 0-18km/h max; 0-25km/h max.

14Y+

User-friendly accelerator throttle secured on the T-bar intuitively aids speed control.

Robust, extra-long & wide aluminium deck with a comfortable & durable silicone grip tape and a kickstand supports up to 100kg.

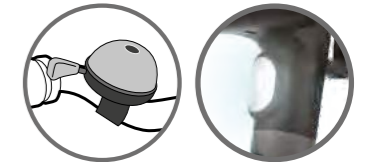

Dual-brake system: E-ABS and mechanical disc brake activated by the handlebar brake with an ISO rear light.

Integrated patented folding system with safety lock.

Super-wide aluminium T-bar with comfortable & dual-coloured TPR ergonomic grips, for kids aged 14+ to adults.

Front ISO LED light & ISO bell integrated on the handlebars.

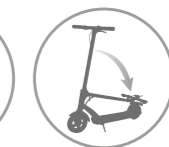

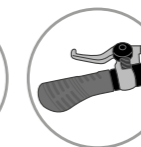

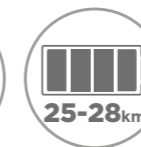

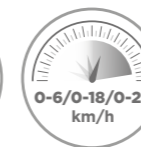

350W brushless motor.

Quality 36V, 7.8Ah lithium battery.

High-quality & high-rebound 220mm 100% front rubber pneumatic tire and a 100% rear dimpled rubber tire for shock absorption, mounted on ABEC 7 bearings.

	WEIGHT	DIMENSIONS (H x L x W)
